

Examination	University	Institute	Year	CGPA (%)
Graduation	Anna University	Karpagam College of Engineering ,Coimbatore	2026	7.5
HSC	State Board	Vani Vidyalaya Matric Hr Sec School, Namakkal	2022	74.5%
SSLC	State Board	Vani Vidyalaya Matric Hr Sec School, Namakkal	2020	80.6 %

SKILLSET

- **Languages:** C, Java , Dart.
- **Web Development:** HTML, CSS, JavaScript.
- **Database Management:** MySQL, Mongo DB, Firebase.
- **Frameworks & Libraries:** React.js, Node.js ,Express.js, Bootstrap ,Flutter ,Tailwind CSS .
- **Problem Solving:** Data Structures, Algorithms, Debugging.
- **Tools and Technologies:** Git, GitHub, Visual Studio Code , Flutter Flow.

KEYPROJECTS

Portfolio Management App | Individual Project | Mobile App Developer [🔗](#) [May 2025 – Till Now]

- **Problem Statement:** Managing and updating personal portfolio data manually on the website can be time-consuming and inefficient.
- **Solution:** Developed a mobile app using Flutter to manage and update portfolio content dynamically. The app syncs with a React-based portfolio website via Firebase, allowing real-time updates of projects, experiences, and skills.
- **Technologies Used:** Flutter , Dart , Firebase ,React.js .

Learning Portal Using MERN Stack | Individual Project | Full Stack Developer [🔗](#) [Jan 2025 - Apr 2025]

- **Problem Statement:** Limited access to structured online learning platforms with interactive features.
- **Solution:** Developed a full-stack learning portal where teachers can add courses and students can enroll and study with real-time updates.
- **Technologies Used:** MongoDB, Express.js, React.js, Node.js (MERN Stack).

Sign Language Learning App | Team Project | Mobile App Developer [🔗](#) [Sept 2023 - May 2024]

- **Problem Statement:** Limited resources for deaf and mute individuals to learn sign language easily.
- **Solution:** Developed a mobile app offering interactive lessons and real-time sign language practice.
- **Technologies Used:** Flutter Flow, Firebase.

Blood Donation Website | Individual Project | Full-Stack Developer [🔗](#) [Aug 2023 – Sept 2023]

- **Problem Statement:** Difficulty in finding blood donors quickly during emergencies.
- **Solution:** Created a platform to efficiently connect donors.
- **Technologies Used:** HTML, Bootstrap, JavaScript, PHP, MySQL.

CERTIFICATIONS

- **Postman** - Postman API Fundamentals Student Expert certified for basic API testing skills. [Mar 2025]
- **Coursera** - React Basics (Meta) | Fundamentals of React including JSX, components, props, and state [Mar 2025]
- **Hacker Rank** - CSS (Basic) Certificate | Fundamentals of CSS and styling [Jan 2025]
- **Hacker Rank** - JavaScript (Basic) Certificate | Fundamentals of JavaScript programming [Jan 2025]
- **Workshop** - UI/UX. [Feb 2024]
- **NPTEL** - Programming in C (NPTEL) [Sep 2023]

SCHOLASTIC ACHIEVEMENTS

- Won 2nd Prize in the National Level Hackathon at Erode Sengunthar Engineering College. [Sep 2024]
- Certified in Basics of Java with 80% in the completion test. [Apr 2024]

INTERNSHIP

- **Python :** Created Python automation scripts to streamline workflows enhance efficiency. [Sep 2024]
