

Examination	University	Institute	Year	CGPA (%)
Graduation	Anna University	Karpagam College of Engineering, Coimbatore	2026	7.3/10.0
HSC	State Board	Vani Vidyalaya Matric Hr Sec School, Namakkal	2022	74.5%
SSLC	State Board	Vani Vidyalaya Matric Hr Sec School, Namakkal	2020	80.6%

SKILLSET

- **Languages:** C, Java, Dart, C#, JavaScript
- **Web Development:** HTML, CSS, JavaScript, React.js, Node.js, Express.js
- **Database Management:** MySQL, MongoDB, Firebase
- **Frameworks & Libraries:** Bootstrap, Flutter, Tailwind CSS, .NET
- **Tools and Technologies:** Git, GitHub, Visual Studio Code, Flutter Flow

KEYPROJECTS

Job Board Platform [🔗](#)

[July 2025 – Till Now]

- **Problem Statement :** Traditional job platforms lack robust identity management and flexible role-based access, creating fragmented user experiences and administrative inefficiencies
- **Solution:** Developed a comprehensive web-based job board platform using ASP.NET Core with three distinct user roles (Job Seeker, Employer, Admin). Implemented secure authentication via ASP.NET Core Identity and enabling dynamic job posting, advanced search capabilities, and comprehensive platform administration.
- **Technologies Used:** ASP.NET Core, C, Entity Framework, SQL Server, Bootstrap, ASP.NET Core Identity, OAuth

Learning Portal Using MERN Stack | Individual Project | Full Stack Developer [🔗](#)

[Jan 2025 - Apr 2025]

- **Problem Statement:** Limited access to structured online learning platforms with interactive features.
- **Solution:** Developed a full-stack learning portal where teachers can add courses and students can enroll and study with real-time updates
- **Technologies Used:** MongoDB, Express.js, React.js, Node.js (MERN Stack)

Sign Language Learning App | Team Project | Mobile App Developer [🔗](#)

[Sept 2023 - May 2024]

- **Problem Statement:** Limited resources for deaf and mute individuals to learn sign language easily
- **Solution:** Developed a mobile app offering interactive lessons and real-time sign language practice.
- **Technologies Used:** Flutter Flow, Firebase.

Blood Donation Website | Individual Project | Full-Stack Developer [🔗](#)

[Aug 2023 – Sept 2023]

- **Problem Statement:** Difficulty in finding blood donors quickly during emergencies.
- **Solution:** Created a platform to efficiently connect donors with those in need
- **Technologies Used:** HTML, Bootstrap, JavaScript, PHP, MySQL.

CERTIFICATIONS

- **Postman** - Postman API Fundamentals Student Expert certified for basic API testing skills. [Mar 2025]
- **Coursera** - React Basics (Meta) | Fundamentals of React including JSX, components, and state [Mar 2025]
- **Hacker Rank** - CSS (Basic) Certificate | Fundamentals of CSS and styling [Jan 2025]
- **Hacker Rank** - JavaScript (Basic) Certificate | Fundamentals of JavaScript programming [Jan 2025]
- **Workshop** - UI/UX. [Feb 2024]
- **NPTEL** - Programming in C(NPTEL). [Sep 2023]

SCHOLASTIC ACHIEVEMENTS

- Won 2nd Prize in the National Level Hackathon at Erode Sengunthar Engineering College [Sep 2024]
- Certified in Basics of Java with 80% in the completion test [Apr 2024]

EXPERIENCE

- **App Development Intern – Interface:** Developing mobile applications using Flutter Flow & Firebase, contributing to UI/UX improvements and backend integration [Aug 2025 – Till Now]
